DRAGONETTE

2015 MJM

COMPOSITION

89% Syrah

10% Grenache

1% Viognier

VINEYARDS

45% Stolpman (3 blocks)

38% John Sebastiano (3 blocks)

17% Kimsey (3 blocks)

CLONES (SYRAH)

383, 470, 174, Alban 1 & Estrella

YIELD INFORMATION

.47 to 2.16 Tons Per Acre Average 1.68

HARVEST DATES

September 3 to 17

APPELLATION

Santa Ynez Valley

FERMENTATION

1.5 ton, open top fermenters Native yeast

AGING

27 months in French oak (puncheon, 400L & barrique) 25% new

ALCOHOL: 14.9%

CASES PRODUCED: 330

SUGGESTED RETAIL: \$75

PHILOSOPHY

MJM is our signature, Syrah-based blend, named in honor of our wives and coconspirators in this venture, Mitchi, Jen and Michelle. We feel that Syrah from cooler sites in Santa Barbara makes wines of extraordinary depth, aromatic complexity, elegance and longevity, on par with those from the great growing regions of the world. We purchase fruit from renowned sites on acreage contracts so we may dictate farming, limit yields and harvest selectively, resulting in grapes of intensity and balance.

THE VINEYARDS

STOLPMAN - BALLARD CANYON

Rolling hills of clay loam, underpinned with limestone produce low yields of spectacularly dark, intense red fruits and meaty notes. A portion of the fruit comes from the high density plantings

John Sebastiano - Sta. Rita Hills

On the edge of the Sta. Rita Hills, this is our coolest Syrah site, which results in remarkable aromatics of spice and dark fruits, in a wild, medium bodied frame with plenty of earth.

Kimsey - Ballard Canyon

Gentle undulating slopes of thin sandy soils with rocks and some limestone, yielding intensely fruity and spicy wines with meat and blueberry notes.

THE VINTAGE

2015 was the last year of a record breaking 3-4 year period of extreme drought. Partially as a result, the vines broke bud in very early March under warm conditions which lasted into April. However, a very cool and windy May resulted in very poor set; with crop levels reduced significantly (exceeding 50% in some cases). What little fruit was on the vine received all the plants' energy through very warm to hot temperatures in June, July and August, though we did have cooler evening in some cases to delay ripening somewhat. Harvest commenced in early September under somewhat rapid (and thus tricky) conditions, but the fruit that was picked was of truly outstanding quality; with incredible depth and concentration. We expect the wines will age extremely well.

OUR WINEMAKING

We harvested each block in the cold morning hours, personally hand sorting in the field. The grapes were destemmed within hours then cold soaked for 4-7 days, before fermentation with native yeasts. Pumpovers, punchdowns and delestage were used to gently extract flavor, while managing tannins. At dryness, the wines were transferred to French oak barrels of various formats (500L puncheon, 400L, and 228 L barrique) of which 25% were new and aged for 15 months, with minimal racking. We painstakingly selected individual barrels for this wine, which was then blended and put back down to barrel for an additional 12 months before bottling.

PROPRIETORS/WINEMAKERS
